St., San Francisco, where contracts for  
advertising can be made for it.

The next mail to arrive from the  
Coast will be on the American-Ha-  
waiian freighter Pleiades, due to ar-  
rive from San Francisco Saturday  
morning. The vessel left the Coast  
city on August 13, and will have five  
days' mail.

### Alaskan and Texan.

The American-Hawaiian freighter  
Alaskan left Hilo for Salina Cruz on  
Saturday, August 14, with a cargo of  
about 12,000 tons of sugar. The Texan  
of the same line will leave Hilo tomor-  
row for New York via Magellan Strait.  
She will also carry about 12,000 tons of  
sugar.

### Lurline Sails Today.

The Matson steamship Lurline leaves  
San Francisco today for Honolulu. The  
Hilsonian lays up one trip, the one she  
was scheduled to leave San Francisco  
for Honolulu on August 25. She will  
resume her runs on September 22.

### Liner Without Masts.

The first transatlantic vessel built ab-  
solutely devoid of masts reached New  
York recently. She is the Norwegian  
freighter Bismarck, on her maiden voy-  
age from West Hartlepool.

The Bismarck embodies visibly the  
final and complete triumph of steam  
over canvas. She has, instead of masts,  
four steel double derricks, which, being  
hollow, also act as ventilators for her  
cargo. Her type will be known as the  
Ropner improved trunk steamer. She  
is 3053 tons register, 4938 gross, and  
ships a crew of thirty men.

government to the effect that while in  
full sympathy with a scheme designed  
to link the various parts of the empire  
more closely together, the common-  
wealth could not undertake any new  
expenditure, but the opinion was ex-  
pressed that when its finances were  
constitutionally rearranged the proposal  
would be reconsidered.

Commenting on the subject the Morn-  
ing Post says:

"Failing the immediate realization  
of the All-Red scheme under imperial  
auspices, efforts are about to be made  
by private firms of shipowners to im-  
prove the connection between Canada  
and Australia. Steps are being taken  
by the Canadian Pacific Railway Com-  
pany to accelerate its service on the  
Pacific, and it is reported that the  
White Star line is to inaugurate a  
service between Prince Rupert and com-  
monwealth ports in conjunction with  
the Grand Trunk railway of Canada.  
Moreover, the Union Steamship Com-  
pany of New Zealand is prepared to run  
an improved service when the existing  
contract for the carriage of the mails  
between Vancouver and Australia ex-  
pires. The present annual subsidy is  
£66,000, which is contributed by Can-  
ada, Australia, New Zealand and Fiji.

### China Due Today.

The China is due this morning from  
Yokohama en route to San Francisco.  
The vessel will dock at the Channel  
wharf, and may depart for the Coast  
at 5 p. m.

The Pacific Mail liner Manchuria is  
due from Yokohama on Saturday morn-  
ing. She will leave 1400 tons of cargo  
here, and may be ready to depart for  
San Francisco on Saturday evening,  
otherwise Sunday morning. She has ac-  
commodations for 125 passengers, which  
includes all that are booked.

### Shipping Notes.

The Andrew Welch has shifted to the  
Railroad wharf.

About Saturday next is the date of  
sailing of the British steamship Cen-  
tury for the South. From there she  
goes to San Francisco to load for Aus-  
tralia.

## KALUANUI BEACH ROAD ASSURED

(Continued From Page One.)  
on the Chinese that they would suffer  
no financial loss, and that the county  
would bear all of the expense of mov-  
ing the buildings and floors.

An agreement was finally reached  
whereby the Chinese will do their own  
moving, the county to pay a stipulated  
sum to recompense them for their ex-  
pense. The total cost will amount to  
\$2340. In return for this money, every  
rice floor will be taken away and all  
houses will be moved. The Chinese,  
doing their own moving, take all of  
the risk upon themselves, so the county  
is released from all liability for dam-  
ages.

Had it been necessary to resort to  
condemnation proceedings, the county  
would not have been able to start con-  
struction work for two months at the  
least.

At tonight's meeting of the Board  
of Supervisors, the road committee will  
present its report for approval. That  
formally out of the way, and all will  
be clear for the next stage in the pro-  
ceedings. Tomorrow morning, bids will  
be advertised for, and within two  
weeks the first gangs will be put to  
work.

Maps are now being drawn for the  
Kahana beach section, and the first of  
next week, bids for that work will be  
called for. There is less work to be  
done at Kahana, and that stretch will  
be completed before the Kaluanui  
piece, in all probability.

After preliminary work on these two  
road projects has been disposed of, the  
road committee will turn its attention  
to the Heeia Beach road. The maps for  
this work have not yet been start-  
ed, and it will probably be several  
weeks before work there can be com-  
menced.

Nevertheless, it is believed that all  
three of the beach roads can be com-  
pleted by December 1. Chairman Quinn  
of the road department is determined  
to have the work disposed of at the  
earliest possible moment, and County  
Engineer Gere is just as anxious as  
Quinn. Gere was largely responsible  
for securing the right of way through  
the kuleanas, and he is highly com-  
mended by the Supervisors for his  
work.

With the completion of the work on  
the three beach stretches, the round-  
the-island route will be practically as  
good as a city street, and the old  
danger of quicksand will cease to exist.

## Letters From the People

### OLDEST SCHOOL FOR GIRLS.

Honolulu, H. T., August 14, 1909.  
Editor Advertiser: In the interests  
of accuracy will you allow me to make  
a correction of a statement which ap-  
peared in the Advertiser of August 14.  
It is there stated that the excellent  
institution, the Kohala Girls School is  
"the oldest school for girls in the Ter-  
ritory" and it is further related that  
"it was established in 1874."

St. Andrew's Priory School for girls  
was opened in 1867, and commences its  
forty-third year in September next.  
This fact makes it, we believe, the  
oldest school for girls in the Territory  
now in existence. There were schools  
for girls that had been open prior to  
1867, but these had been closed. The  
reason for their closing we believe was  
that the American Board did not favor  
the establishment of girls' schools in  
Hawaii where English was to be the  
language used.

ABBY STUART MARSH.

### AS TO ADVERTISING.

Editor Advertiser: The remarks by  
The Bystander on the subject of ad-  
vertising were not in harmony with  
the advertising columns of the paper  
in which the statement is made. Hon-  
olulu merchants are good patrons of  
the columns of this paper and most  
of them acknowledge the benefits de-  
rived from the small expenditure. That  
they use the columns without the aid  
of an expert advertising man is shown  
by the increase in advertising space  
in the Advertiser during one year. For  
instance: On the last Sunday in June,  
1908, there were 468 inches of local  
advertising in this paper. On the last  
Sunday in June, 1909, there were 1094  
inches.

The experience of the Hawaiian pine-  
apple canners is not unusual but you  
must take into consideration this im-  
portant fact. On the mainland there  
are advertising "experts" in the true  
sense, men who design, and artists who  
illustrate, advertisements and a com-  
munity willing to pay the cost of the  
work. Honolulu has experienced ad-  
vertisers but no experts, for the reason  
that there is no field for them. The  
business men are satisfied to have their  
ads. go into the papers without illus-  
trations rather than bear the expense  
of engravings. Almost all of the illus-  
trations used in the Honolulu daily  
papers are furnished, directly or indi-  
rectly, by the manufacturers of the ar-  
ticles advertised. And business goes  
merrily on just the same.

The standard of advertising is set  
by the men who prepare ads for the  
magazine and, as a rule, they are not  
correspondence school graduates but  
men who have done duty in different  
departments of newspapers and who  
have behind them business enterprises  
willing to pay the high cost of such  
publicity and artists who can tell the  
story by a few lines with the pen or  
pencil. For ordinary use the copy pre-  
pared by Honolulu men for the Hon-  
olulu merchants is satisfactory. Some  
day expert service may be needed here  
but it will not be until the business  
community realizes the importance of  
it.

Sheridan for Manila, called on Gov-  
ernor Frear yesterday to pay their  
respects.

Col. Chamberlain was here about ten  
years ago and expressed himself yester-  
day as being greatly astonished at the  
progress that has been made in Hon-  
olulu since his last visit. He inquired  
particularly concerning the small farm  
movement, and expressed his satisfac-  
tion at the progress he was told had  
been made.

The young King of Portugal took

late, when it marched to the parade  
ground at Lisbon to receive a new  
stand of colors, and was a conspicuous  
figure among the kneeling officers dur-  
ing the ceremony which was performed  
by the priests. Describing the pictur-  
esque scene, a writer in a Paris paper  
says: "The boy king, Manuel, is un-  
usually pious and never misses an op-  
portunity to show this side of his char-  
acter to his people. Since he has come  
to the throne the Church has received  
unusual attention and the people have  
become accustomed to the prominence  
of Church dignitaries at all functions,  
and they know that it is Manuel's de-  
sire that on all occasions where the  
people assemble the representatives of  
the Church should be conspicuous."

## Around the Police Station

Mrs. William Reed, who signs her  
name by making her mark, appeared  
at the police station yesterday morn-  
ing and charged that Peter Hollerson  
and Marie Ginding had committed bat-  
tery upon her person. A complaint was  
promptly made out, and a policeman  
was dispatched in search of the us-  
sualers. The couple was soon appre-  
hended, and will have to explain the  
proceeding in court.

Tony Belaska, the Chilean, who was  
found under a bed in E. Faxon Bishop's  
house Saturday night, was bound over  
to the grand jury on a charge of barge-  
lary yesterday morning. It took Judge  
Andrade but a very few minutes to  
dispose of the case.

Five months in jail was the sentence  
handed out to John Kalawana for fail-  
ing to support his children. A philan-  
thropic woman who has been looking  
after the children promised to continue  
doing so pending the release of the  
father.
